***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

1.1 This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

1.2 Group I, claims 1-4, 8, 9, 12, 15 and 18, drawn to class 455, sub-class 450 (channel allocation), is directed to a channel allocation between a mobile station and a base station for assigning a channel bandwidth as requested.

Group II, claims 5-7, 10, 11, 13, 14, 16 and 17, drawn to class 455, sub-class 436 (handoff), is directed to a handoff of a mobile station with multiple channels communicating with a plurality of base stations, and polling available bandwidths among the plurality of base stations for assigning the least available bandwidth for the mobile station and the plurality of base stations.

1.3 Inventions in Group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as adding channel bandwidth to a data channel when higher data rate is required. See MPEP § 806.05(d).

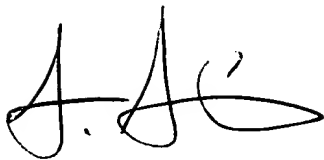

Art Unit: 2645

1.4 Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

2. A telephone call was made to Mr. Samson Helfgott on 12/08/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

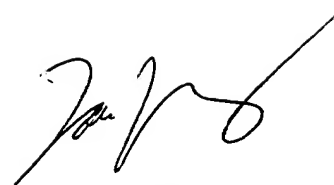

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
